To whom it may concern,

I have known Dr. Galabina Tarashoeva, as a colleague, for more than 8 years.

We have worked together inside the International Association for Group Psychotherapy and Group Process, IAGP, a world wide organization with members in all continents. By my colleagues and friends in IAGP I have been noticed about the campaign she is suffering in her country, to defame her.

Every time we work together she had very committed, responsible and ethical behavior. That is the reason I am writing now to support her against this campaign.

I really don't know the others involved in this, but I do know her, and she will never do this kind of things she is accused to, and to make any harm for patients, and persons that she is entrusted to take care.

For all this I hope justice can be done.

Sincerely yours from

São Paulo, Brasil
