To whom it may concern,

I have known Dr. Galabina Tarashoeva, as a colleague, for more than 8 years.

We have worked toghether inside the International Association for Group Psychoterapy and Group Process, IAGP, a world wide organization with members in all continentes. By my colleagues and friends in IAGP I have been noticed about the campain she is suffering in her country, to defame her.

Every time we work toghether she had very committed, responsable and ethical behavior. That is the reason I am writting now to suport her against this campain.

I really don't know the others involved in this, but I do know her, and she will never do this kind of things she is acused to, and to make any harm for pacientes, and persons that she is encharged to take care. For all this I hope justice can be done.

Sincerely yours from São Paulo, Brasil
